

# **SATSUKI VARIETY INDEX**

**FIRST ISSUE**

## **SATSUKI VARIETY INDEX**

**The following is my personal list of over 1800 Satsuki variety names collated from many sources. Originally compiled because early Tochinoba Shobo Dictionaries did not have indexes in English. It was an aid to find varieties quickly but later editions now have English indexes rendering this list superfluous, almost. I say almost because the later dictionaries do not show all the older varieties and obviously the older ones do not show the newer ones so it's main use now is to point you in the right direction to find a photograph of what you are looking for. When I find a reliable source of variety names that are not in the dictionaries, I will include them here. (Satsukimania for instance. Some varieties can be found on Satsukimania that are not in the dictionaries.)**

**Working my way through the 2020 edition I have found a few mistakes, names in the index that do not match the spelling on the page referred to and some varieties featured in the book that are not listed in the index. One thing I found annoying in the English index is the names of 243 varieties that refer to the smaller, inset photos. Unfortunately, these photo's do not have the English name attached so on pages where there are more than one it can be difficult to decide which is the one you are looking for. This list can now point you in the right direction.**

**I would like to say a very big thank you to Mr. Masayasu Nishiyama (Mack) for his assistance with providing the English translations, Floral Design description and Parentage for the variety names. Whilst writing I would like to thank him for all the help and advice, he has given me over the years - a true Satsuki Master!**

**Page numbers for 1997 & 2001 books were courtesy of a previous database compiled by Paul Esslinger.**

**1983 entries are from the Azalea Society of America website. I think some entries on this website are erroneous but without a copy of the book I cannot confirm this statement. Those that look like obvious spelling mistakes I have used the correct spelling, others that look like nothing else already listed I have added.**

**Before you get to the Index I have added some pages showing flower patterns. The flower pattern details were copied from the Alexander Kennedy book, "Floral Treasures of Japan" An excellent book for both beginners and experienced alike. Hopfully the pattern pages will help with some of the flower design descriptions in the Index.**

**If you find any errors, please contact me, Ray Beddow on:**

**FIRST ISSUE - 1st May 2022**

## 1. Solid (base) colours (*muji*)

Flowers with only one solid colour are known as Sels.  
In Japanese the term *muji* is added to indicate self.

*Shiro-muji*  
(White self)  
Typical var.  
*Ungetsu*

*Aka-muji*  
(Red self) or  
*Muraski-muji*  
(Purple self)  
Typical var.  
*Osakazuki*

*Jiai-zaki*  
(Combination  
colour  
White/Red)  
Typical var.  
*Goyoten*

## 2. Colour-Ring Variations

Most commonly flowers with a white centre surrounded by a coloured pattern.

*Sokojiro*  
(White-throat)  
Typical var.  
*Seidai*

*Tsumabeni*  
(Crimson  
Fingernail)  
Typical var.  
*Shuchuka*

*Shiro-fukurin*  
(White jewel  
border)  
Opposite of  
*Sokojiro*  
Typical var.  
*Heiwa-no-Hikari*

## 2. Colour-Ring Variations

*Janome-shibori*

(Bull's eye variation)

Combination of *Fukurin* & *Sokojiro*

Typical var.

*Kisarazu*

*Tamafu*

(White jewel spot)

Technically not a colour ring but related in as much as each petal shows a coloured margin with a white centre.

Typical var.

*Yata-no-Kagami*

### 3. Stripes & Sectors

*Shibori* (Variegation or more literally 'tie dyed') is the name given to flowers with stripes, patches or darker colour on white ground.

*O-shibori*

(Major sector Variegation)  
At least half of the petal is  
coloured.

Typical var.

*Kogetsu*

*Hanzome*

(Half coloured)  
At least half of flower is  
coloured.

Typical var.

*Kaho*

*Ko-shibori*

(Small, minor sector  
variegation) marks less  
than half petal width but  
not extending to centre.

Typical var.

*Yama-no-Hikari*

### 3. Stripes & Sectors

*Tate-shibori*

(Lengthwise Variegation)  
Colours extend from petal  
Edge to centre.  
Typical var.  
*Kiri-no-Hikari*

*Daisho-shibori*

Where *O-shibori* &  
*Ko-shibori* occur on  
The Same flower.  
Typical var.  
*Kogetsu*

*Date-shibori*

(Showy variegation)  
More intense form of  
*Ko-shibori*.  
Typical var.  
*Matsunami*

### 3. Stripes & Sectors

*Shiro-Shibori*

(White Variegation)

As *Ko-shibori* but in  
reverse. (White stripes  
on coloured ground.

Typical var.

*Shinkyō*

## 4. Speckles & Flecks

There is an infinite number of flower patterns with flecks & dots. The Following are just a few the Japanese deemed worthy of naming.

*Hakeme-shibori*

Flower covered in fine  
Parallel lines.

(*Hakeme* is a coarse brush  
used to decorate pottery.

Typical var.

*Matsunami*

*Fukiage-shibori*

(Fountain variegation)

A spray of fine flecks

Fading toward the edge.

Typical var.

*Seiun*

*Fukkake-shibori*

Similar to *Fukiage-shibori*

But with markings mainly

Around the perimeter.

Typical var.

*Kirin-no-kagami*

## 4. Speckles & Flecks

*Arare-shibori*

(Hail variegation)

Large streaks & spots  
over petals

Typical var.

*Hototogisu*

*Mijin-shibori*

(Fine particle variegation)

A mist of fine particles.

Typical var.

*Yomei*

*Harusame*

(Spring rain)

Flecks cover entire surface  
of flower.

Typical var.

*Gyokusho*
